

REMARKS / ARGUMENTS

Upon entry of this amendment, which amends claims 9, 19, and 20, claims 9-12 and 14-22 remain pending. In the office action, claims 9-10 and 19-21 were rejected under 35 U.S.C. §112, first paragraph, as failing to comply with the enablement requirement and under 35 U.S.C. §112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter that Applicants regard as the invention. Claims 11, 12, 14-8, and 22 were allowed. Applicants respectfully request withdrawal of the rejections in view of the amendments above and the remarks below.

Applicants thank the Examiner for the indication of allowable subject matter.

Claims 9-10 and 19-21 were rejected under 35 U.S.C. §112, first paragraph, as failing to comply with the enablement requirement and under 35 U.S.C. §112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter that Applicants regard as the invention. As discussed during a phone conversation with the Examiner, applicants have amended the claims to read “wherein if the remote location cannot recreate the state of the application program, the remote location uses the information for the current state of operation ~~allows the remote location to display the information.~~” Applicants submit that claims 9-10 and 19-21 now fully comply with the requirements of Section 112.
